charge.

broke and swung over and over
and punched ends off ties for a

gine could be stopped. Strange
to say, only the tender left the
track and the wrecker was im-
mediately sent down to the scene of
trouble. Traffic was delayed for
several hours.

NEW WAY OF TRAVELING.
St. Petersburg, Fla., Jan. 15.—
The first hydroaerone plane pas-
senger in the world is being operat-
ed between here and Tampa, 224
miles away. Trips are made each
day, from the Petersburg yacht
harbor and return. "Boats will
run on schedule time," say the di-
rectors of the stock company
backing the novel enterprise.
The company is composed of St.
Petersburg and Tampa business
men.

SOME MORE PROGRESS.
Chicago, Ill., Jan. 20.—A chain
of retail groceries and coal mar-
kets, financed by the City of Chi-
cago and operated for the benefit
of those who are out of work, but
who still have some small savings
of money and therefore have not
been reduced to the necessity of
applying to the county agent for
relief, will be started in a short
time, according to the plans of
the county and city officials and
the leaders of Labor unions.

HITS THE POCKET-BOOK.
Milwaukee, Wis., Jan. 19.—A real
wedding "famine," caused by the
new Wisconsin eugenic marriage
law, is costing this city which has
a population of nearly 400,000,
\$10,000 a day, according to es-
timates of merchants and others
who supply the wants of newly-
weds. The law, which became ef-
fective the first of the year, pro-
vides that all would-be husbands
must pass a health test, the ex-
amination to be conducted by a
reputable physician. Evidently
the young people do not approve
of this kind of legislation. Most
of those who are getting married
are going out of the state,
though the law says they shall
not do it, and are having the
knot tied in nearby cities. Chicago
attracted a great many of them.

The average rate of rent paid
by newly-wedded couples in Mil-
waukee is \$18 a month and land-
lords are losing \$450 a day. The
coal men are losing \$400 a day.
The daily expenditure for furni-
shings for each flat is estimated as
at least \$300, and the next feath-
ers are losing \$7,500 daily. The
grocery man is losing \$150 a day
and \$250 in ministers' fees are
going by the board every day.
Clothing merchants are losing
\$825 daily by not selling "glad
rags." Seven hundred and fifty
dollars a day is the estimate of
the brides "scenery."
